Beginning Year 12 is an exciting next phase of a student's academic career, and at Becky High Sixth, we are here to guide and support as you make important decisions about your future. Our supportive community, in which everybody is valued as an individual, means you can expect the highest level of care in every aspect of school life.

Most of our students go onto study at Russell Group or top universities, and students interested in applying for Oxbridge, medical, dental or veterinary schools are coached and supported through this very specific process. Whichever route you decide to take - degree, degree apprenticeship or the world of work - we are there to support and guide you.

Whilst academic success is of paramount importance, we also strive to provide an enjoyable and stimulating environment. Beyond the classroom there are many extra-curricular activities for you to enjoy, but we also encourage sixth formers to take the initiative and set up their own clubs for their peers and younger students.

A sixth form education at Beaconsfield High School means students leave us with greater independence, resilience and aspirations for their future, ready to embrace the exciting challenges which lie ahead.

Ms Juliette Ganachaud (Director of Sixth Form) and *Ms Tina Bond* (Headteacher)

I've been at Becky High since Year 7 and when deciding where to study my A-levels, I couldn't imagine myself anywhere else. Our wonderful community of students and teachers means everyone is supported through their sixth form journey and encouraged to achieve and exceed their goals.

With a wide range of senior student and extra-curricular leadership opportunities, sixth formers are given just the right amount of responsibility and encouragement to develop their independence, ready for life beyond Becky High.

We have an extensive network of resources available to help students decide which future career path is best for them. I've been inspired through our enrichment program and assemblies and guided by our careers councillor into making the right decision for my future. In sixth form, I have made friends for life and so many new memories that I will cherish.

I have always found Becky High to be a happy, inclusive and uplifting community and I have loved my time here.

Sophie Tucker (Head Girl)

I joined Becky High Sixth in Year 12, and I chose it because of its outstanding academic reputation and how both students and teachers are dedicated to helping us thrive. I thoroughly enjoy all my lessons, especially maths! The resources provided are like no other school, making my lessons both educational and enjoyable and students are truly dedicated towards all aspects of their academics.

The Sixth Form Weekly contains lots of great resources that I otherwise wouldn't have known about, and the info is incredibly invaluable now we are considering UCAS applications.

The extracurricular activities offered have everything you would want, from sport and music activities, to subject societies and mentoring schemes. The new starter lunch organised by sixth form staff was brilliant and made the transition process much easier. The students were welcoming which put many of my worries at ease and allowed me to settle in very quickly. Overall, moving to Becky High was the best decision I made, and I would definitely recommend it to Year 11s considering a move from their current school.

Ananya Anoop (Year 12 student)

About us

Our A-Level programme blends academia with leadership, creativity, teamwork, resilience and independent thinking. We believe it is this combination of learning and involvement that prepares you for life after Sixth Form. Our staff - talented subject specialists with broad life experience - prefer a respectful and collaborative approach when working with Sixth Form students and in return, we encourage independence, commitment and maximum effort from you.

The Sixth Form Team work closely with the Senior Prefect Team to ensure we are providing everything our Sixth Form students need to thrive and excel. Once you join us, we work hard to develop your character, foster your acumen and build your future aspirations.

Those driven to apply to Oxbridge are guided and supported through the early application process and the school has a strong pedigree of success; this year we celebrated 8 acceptances in a range of degree subjects including law, history, English, theology and French.

For those who don't go down the Oxbridge route, we provide extensive support and guidance for anyone wanting to apply to other universities, conservatoires, degree level apprenticeships and overseas universities.

Our STEAM initiative (Science, Technology, Engineering, Arts and Mathematics) recognises the importance of creativity across these subjects and throughout the curriculum. At Beaconsfield High School our aim is to prepare our students for life beyond the classroom. With an increasing demand on STEAM skillsets within industry, we aim to motivate and inspire pupils further to explore the rewarding opportunities available through STEAM. Students are encouraged to enter STEAM competitions, to engage in groups and clubs for further learning and to imagine the possibilities of a career in areas once not so accessible.

Our Sixth Form facilities include two dedicated study spaces: the Sixth Form Study Area is a large, supervised working space allowing students to focus in silence on their independent work; the 6HUB is used by students wanting to work quietly in small groups, as well as discuss and share resources.

The above is only a taste of what we offer so please, read on to find discover even more!

Your ambitions

Whatever your future career plan, we have the skills, extensive experience and know-how to get you there, combined with a portfolio of subjects to give you a strong, comprehensive grounding that really opens doors. So, the key now is to consider which A-Level options will work best for you.

First and foremost, you must enjoy what you are going to be studying. Two years is a long time and the hard work and dedication required to ensure success has to be balanced with real enthusiasm and motivation. Enjoyment comes when we spend time doing what we are good at, so consider carefully where your strengths lie.

Dependent on your career ambitions, you may wish to specialise or strategically combine certain A-Levels to lead to a particular degree. If that's your plan, take a moment to read the next page which offers a list of degrees with suggested A-Level subjects.

A rounded educational experience at this stage of your life will prepare you for the competitive world of work following your studies. Our Sixth Form offers so much more than the theory of A-Levels. We furnish you with the life skills, work knowledge and experience, and tools to thrive post beyond BHS.

Degree

Suggested A-Level combination

American Studies	English or history.
Accounting	Maths preferred. Economics and business useful.
Archaeology	History, English, geography, biology and chemistry. Most other subjects considered.
Architecture	Maths and physics useful. Evidence of artistic ability normally required (A level or GCSE).
Biochemistry	Chemistry essential and maths, physics or biology.
Biomedical Science	Biology and chemistry plus computing, maths or physics.
Biology/Botany/Ecology/ Zoology	Chemistry and biology.
Business Studies	Maths, business studies and economics useful. MFL for joint honours, for example business studies and Spanish.
Chemical Engineering	Maths essential, chemistry or physics strongly preferred plus one other academic subject.
Chemistry	Chemistry essential and at least one from maths, physics or biology.
Classics	Latin and classics. History, English, philosophy and MFL also useful.
Computer Science	Maths essential, further maths essential for some courses and strongly preferred. Computing and physics also required.
Dance/Performing Arts	Dance/ Drama. Musical ability usually above a certain grade-Instrument/singing. Entry usually by interview and audition.
Dentistry	Chemistry, biology and either maths or physics.
Economics	Maths strongly preferred. Business or economics useful.
Education	Specific A-Levels not required unless taking a subject based degree.
Engineering (Civil, Electronic, Production and Mechanical)	Maths and physics essential. Further maths useful and one other science subject also recommended.
English	English + any humanities subject. Classics and Latin useful. For certain courses MFL is also useful.
Fine Art/Art	Art + portfolio. History or English helpful.
Food Science/Nutrition	One or two science subjects from chemistry, maths, physics and biology.
Geography	Geography preferred + biology, chemistry, computer science, maths, physics and psychology useful.
Geology	Combination of the sciences and geography useful.
Government & Politics	Politics, history, economics, maths, philosophy and ethics, sociology.
History	History, politics + English, MFL, classics or Latin.
Law	History, economics, English, politics, religious studies, latin, sociology.
Maths	Maths essential. Further maths strongly preferable and essential for some courses. Physics.
Medicine	Chemistry and biology and one other science subject.
Modern Foreign Language	A-Level in the main language + one other language (can include Latin).
Music	Music and Grade 8 performance preferred.
Nursing	One A-Level from any science subject strongly preferred plus two other A-Levels.
Optometry	Minimum of two sciences plus any other A-Level but not general studies.
Pharmacy/Pharmacology	Chemistry and two from maths, physics or biology.
Philosophy	Maths, politics, classics, philosophy and ethics. Maths, English and history can also be useful.
Physics	Physics and maths. Other science subject also useful.
Psychology	Psychology or a science useful. Maths essential for many courses.
Sociology (including social Sports Science)	Economics, history and maths useful. A-Level sociology not always required. Two science subjects, psychology, PE
Theology/Religious Studies	Religious studies useful. One essay based A-Levels strongly recommended are English, history and classics. Latin and Greek GCSE are also a big advantage.
Veterinary Science	Chemistry, biology and either maths or physics (or both).

Use [this link](#) to find out what subjects you may need to study at A-Level. This is not an exhaustive list of degrees and many universities will offer more options, such as joint honours, which means studying two subjects as one degree.

Studying with us

At Beaconsfield High School we know that preparing for the next step after Sixth Form takes more than excellent A-Level results. We balance a considered programme of study and broader activity for a holistic learning experience that develops in you a deeper knowledge – something that is highly valued by universities and employers.

You will study the same three (in some cases, four) A-Levels across your two years in Sixth Form, with exams in Year 13 determining your final results. We offer more than 20 A-Level subjects which are listed on the next page.

Our Sixth Form Programme

Our Programme:

Three A-Levels
UCAS Programme
PSHE Education
Enrichment Series
BHS and Beyond Programme
Student Leadership Development
Sport

Plus one of:

Extended Project Qualification (EPQ)
AS-Level (Spanish or French)
Fourth A-Level

A-Level Subjects:

Art, Craft and Design | Biology |
Business Studies | Chemistry |
Classical Civilisation | Computer
Science | Dance | Drama and Theatre
Studies | Economics | English
Language and Literature | English
Literature | French | Further
Mathematics | Geography |
Graphics | History | Latin |
Mathematics | Media Studies | Politics
| Music |
Physical Education | Physics |
Psychology | Religious Studies |
Sociology | Spanish

For further details on the A-Level curriculum please see our A-Level Options Guide [here](#).

SPORT & ACTIVITIES PROGRAMME

Whatever your sporting ability, our Sixth Form games afternoon is the perfect way to stay active and healthy. Join one of our senior sporting teams and compete at national level in indoor and outdoor hockey, netball, dance and gymnastics or get involved in recreational activities like yoga, badminton and tennis. Sixth Formers can also participate in the Level 3 Sports Leaders Award, which offers UCAS points, and Level 2 Dance Leadership.

UCAS PROGRAMME

We are very ambitious for our students and run a comprehensive programme to support their future choices. Students investigate the different options available to them and are guided through the process with a bespoke programme of study and support from their Form Tutors, subject staff, Head of Learning and careers advisors.

A dedicated UCAS and Futures Day in the Spring Term of Year 12 mean our students are equipped to make informed and confident choices about their futures.

DEGREE APPRENTICESHIPS

For students wanting to pursue degree-level study while gaining a head-start in their chosen career, degree apprenticeships provide the best of both worlds. BHS work closely with Amazing Apprenticeships who deliver the ASK programme, helping students understand apprenticeships and providing support through the application process.

Our PSHE programme continues throughout the Sixth Form and is embedded within the Vespa programme, enrichment series and collapsed lessons. Learning and Well Being Review Days are held twice a year for both Year 12 and Year 13 students. These are one-to-one interactions between a tutor and tutee. This invaluable personalised approach provides individual attention and tailored support for each student's learning and emotional needs.

The Year 12 enrichment series and careers assemblies brings in a wide range of speakers, including alumnae and parents, from a variety of professional and vocational backgrounds. Students also hear from university representatives, apprenticeship providers and degree apprentices throughout their time in the Sixth Form. This broadens your knowledge, opens your eyes to other perspectives and possibilities, and gives you a greater learning experience.

All students are expected to take part in volunteering and work experience which will not only help you to think about future careers but will also provide experiences to reflect on in personal statement, interviews and CVs. Work experience provides an important insight into a 'real' world environment, enables students to make contacts for their future away from BHS and provides an opportunity to develop crucial soft skills useful in all walks of life.

University Preparation

Our students apply to university via UCAS and our staff are experienced in supporting students through this process. Staff guide students through university and degree course research, help them prepare their applications and for interviews at their preferred universities. Students applying for Oxford or Cambridge, or specialist courses which require early application - medicine, dentistry or veterinary medicine – are also allocated a dedicated team of Sixth Form staff, as well as having access to support from the wider school community and our alumnae. This dedicated, hands-on support ensures that the majority of our students achieve an offer from their first-choice university.

Career Coaching

Whatever route you are considering when you leave at the end of Year 13, our dedicated careers team are available to advise on a one-to-one basis. You might decide you want to apply for a Degree Level Apprenticeship or a vocational qualification instead of a traditional degree, and if you do, we'll be there to help you navigate these very different processes.

It's an exciting time, but whichever route you choose, we're right there with you. **15**

Our students are also expected to choose one of the following in addition to their choice of three A-Levels:

Extended Project Qualification

The EPQ is the opportunity to research a topic that interests you and create a dissertation, field study/investigation, artefact or performance related to that topic. It is highly regarded by universities as it is indicative of wider reading and knowledge; many universities make lower A-level offers to students undertaking an EPQ

This AQA qualification is graded from A* to E and can earn you up to 28 UCAS points.

AS-levels

Spanish and French AS-Levels are one-year courses, examinable at the end of Year 12.

Fourth A-level

This option is only recommended for students who are very academic and driven, and who are comfortable with the additional commitment needed to achieve the highest levels of success. There is a minimum entry criteria in order to study four A-Levels.

Getting involved!

Team Projects

We encourage all students to take part in team projects such as Duke of Edinburgh, the National Citizenship Service or Young Enterprise as these offer opportunities to mix with a wide range of people, gain leadership experience, and help improve self-awareness and self-confidence.

Trips and Visits

Expanding your knowledge outside of the classroom is important.

We offer a wide range of trips and experiences for Sixth Form students. Previous years have seen music trips to Prague, Barcelona and Edinburgh; sports tours to South Africa, geography trips to Iceland, inter-school and international conferences with the Model United Nations Club, the Biology Department trip to Juniper Hall in Dorking, theatre trips, dance workshops and a visit to CERN, the European Organisation for Nuclear Research.

Creative Experiences

Our Performing Arts and Creative Arts Departments offer exciting opportunities to get involved in the creative side of our community.

Join Senior Choir, Senior Strings, our Symphony Orchestra or Wind Band, or get involved in the annual school play or dance show.

For artists, our hallways are your gallery; but we don't stop there, we work with local businesses to showcase your talent to the wider community too.

Community Spirit

The Becky High community is what makes us so special and it's what brings students together across the year groups.

Our Equality and Diversity Senior Prefects develop a calendar of engaging events to ensure Sixth Formers connect across the two years. The annual Sports Dinner organised by the PE Department celebrates the outstanding sporting achievements of our students. Our Charities Prefects organise events to raise money for the school's chosen charities (over £20k last year), our Heads of Houses run inter-house competitions across all year groups to build House spirit and connect the year groups and of course, there's the end of term BBQ and Bounce in the summer term.

Sixth Form students also volunteer in the local community and provide an in-house mentoring service for students through our Blossom and Roots Programme.

Student Leadership

The Sixth Form Student Leadership team comprises of the Student Leader, Deputies and Senior Prefects. Staff not only respect the voice of the student body, but relish the opportunity to work with them to develop and enact change.

The Student Council and the Prefect team unite students across all years, meeting regularly to discuss and action improvements and new ideas. The Sixth Form Student Council focuses on the needs of the Sixth Form including big plans for continuous improvements to the school's facilities.

Our six Houses - Bhutto, Blackman, Rambert, Parks, Hamilton and Holmes - are led by a team of 12 Sixth Form House Captains.

Societies

We offer an ever-growing number of societies led by Sixth Formers, allowing for further leadership opportunities and educational gain. Example of these include: MedSoc, LawSoc, Maths Soc, Debating Club, Economics Society, Oxbridge Society, Finance Club, Model United Nations, Red Cross, Spanish Culture Club and Formula 1 Club.

Supporting you every step of the way!

Ms Ganachaud is the Director of Sixth Form, an Assistant Headteacher as well as a Maths teacher. Ms Ganachaud has worked at Beaconsfield High for seven years and with Sixth Former students for over ten years.

Mrs Greenwood is the Sixth Form Administration Manager and pastoral support. She was an engineer in a past life and has supported Sixth Form students at Beaconsfield High Sixth Form for seven years.

Mrs Gill joined the Sixth Form as Administrative Assistant in 2021 and looks after Sixth Form attendance and careers. She ran a team of Investment Bankers in the City for many years before joining us.

Ms Allen is Head of Learning for Year 13. She is also Head of Faculty for Social Sciences and Heads up to Sociology Department. Ms Allen has an overview of any pastoral concerns relating to Year 13.

Ms Farrugia is Head of Learning for Year 12. She teaches English and is the Subject Lead for A-Level Media Studies; having taught at BHS for 4 years. Ms Farrugia has overview of any pastoral concerns relating to Year 12.

Sixth Form Tutors

Sixth Form students receive one-to-one support from their Form Tutors to meet all their mentoring, nurturing or coaching needs. Tutors work directly with students to guide and support them through Sixth Form life including their A-Level studies, their personal wellbeing, the UCAS process, degree-apprenticeship applications, or any other route they choose to pursue.

Applying to join us

We welcome students who are driven, have a strong work ethic, are academically ambitious and have a vision for their future.

To join our Sixth Form, you will need a minimum of 44 points from your best 8 GCSE results. The following must also apply:

- GCSE Maths and English (Literature or Language) must be Grade 5 or above.
- You must achieve the minimum GCSE grades required in your intended subjects of study, as detailed on the following page.

The majority of our students study 3 A-Levels and an EPQ. The option to study 4 A-Levels is only a possibility for applicants achieving at least 64 points from their best 8 GCSEs. Students wishing to study Further Maths as a 4th A-Level who have not quite achieved the minimum of 64 points but show a real strength in maths and further maths at GCSE will be considered on a case-by-case basis.

GCSE point scores will be calculated as below:

Grade	9	8	7	6	5	4	3	2	1
Point score	9	8	7	6	5	4	3	2	1

All of the A-Level options available to start in September 2024 can be viewed on the next page.

External students should complete the online application form linked [here](#) by Monday 29th January 2024.

Current Beaconsfield High School students will receive a link to an online application form during the first half of the spring term of Year 11.

Note: We will do everything we can to run the courses outlined on our curriculum. However, where we don't have sufficient interest we may not be able to run certain courses, but we will work with you to find another that is suited to your strengths and your future aspirations.

Any student wishing to change their A-Level subjects once they have started the course in September of their Year 12 will only be able to do so up to the end of September. This allows all students to experience four weeks of the teaching cycle (weeks A and B) in all their subjects.

A-level Entry Criteria 2024-25

A-level Course

*44 points from your best 8 GCSEs,
GCSE Grade 5 in Maths and English
plus the requirements below*

Art, Craft and Design	GCSE Grade 6 in Art or Textiles
Biology	GCSE Grade 7 in Biology OR two GCSE Grade 8s in Additional Science
Business Studies	GCSE Grade 5 in Math and GCSE Grade 6 in English
Chemistry	GCSE Grade 7 in Chemistry OR two GCSE Grade 8s in Additional Science
Classical Civilisation	GCSE Grade 6 in English Literature or History
Computer Science	GCSE Grade 7 in Computer Science OR substantial programming project (any language)
Dance	GCSE Grade 6 Dance and dance experience
Drama and Theatre Studies	GCSE Grade 6 English or Drama
Economics	GCSE Grade 6 English and Maths
English Language and Literature	GCSE Grade 6 in English
English Literature	GCSE Grade 6 English Literature and English Language
French	GCSE Grade 7 in French

Open Evening

Our Sixth Form Open Event is Tuesday 14th November 2023, 17:00-19:30. Please see our website nearer the time for up-to-date information.

Meet Your peers

Later in the year, we offer our usual Induction Day during which you'll connect with subject teachers for your chosen A-Level. They will provide you with an introduction to their course and outline the summer bridging work to be completed before joining the Sixth Form in September. External applicants will be invited to visit school once their exams have finished. This will be an opportunity to tour the school, as well as meet other applicants and the Sixth Form Team. Current Year 12 students will be on hand to talk more about life in the Sixth Form and answer any questions.

Ready to apply?

Once you are ready, external applicants should complete the online application form linked on page 22 of the prospectus and return it by the deadline to the Sixth Form Office. Current BHS Year 11 students will receive an application form following their mock exams at the start of the Spring term. Please direct any questions to sixthform@beaconsfieldhigh.bucksch.uk.

Our alumnae

For us, our alumnae are a wonderful example of how Becky High prepares students for life after school and university. The paths our students choose are diverse, exciting and challenging. Every year, alumnae return to us to take part in careers talks, including our Sixth Form Enrichment Series, speak in assemblies, provide invaluable mentoring support and mock interviews to current students, and we couldn't be more proud of them.

The following alumnae profiles will give you a flavour of just some of our students' exciting career choices!

Dr Melanie Windridge

Dr Windridge left BHS to study physics at Bristol University, followed by a PhD in plasma physics from Imperial College London in 2009. She is a plasma physicist specialising in fusion energy and currently works as the Communications Consultant for Tokamak Energy. Melanie also loves the outdoors and summited Mount Everest in 2018!

Beth Rigby

Beth left BHS to study social and political science at Fitzwilliam College, Cambridge where she graduated with a first. She continued her studies at the University of London where she gained a master's in Latin America.

She has worked as a journalist for the FT and The Times and is now the Political Editor for Sky News.

Katie Raettig

Katie left BHS to study sociology at the University of Bath. She is currently the Post-Production Coordinator at Outpost, an independent TV and film post-production company at the world famous Pinewood Studios. Katie is also a keen writer and 'Disney fanatic' and writes regularly for the US Disney fan information site WDWNT.

Bekah Cork

Bekah left us to study music at The University of Birmingham and after graduation she joined the City of Birmingham Symphony Orchestra as their Assistant Planning Manager. Currently she is the Artistic Planning and Tours Manager at the Royal Scottish National Orchestra.

Saliha Mahmood-Ahmed

After BHS, Saliha studied medicine at Kings College graduating in 2012. She is currently an NHS junior doctor training in gastroenterology. She has always had a passion for cooking and in 2017 won the BBC's MasterChef competition. She has since written her own cookbook winning Best New Cookbook in the 2019 Observer Food Monthly Awards!

Jessie (Baker) de la Merced

Jessie left us to study Biological Anthropology at The University of Cambridge followed by a one year studentship at Harvard University studying political communications. She went on to intern at Google, spent three years at Brunswick Group before joining Facebook where she is now the EMEA Communications Director.
